TITLE 32-NATIONAL DEFENSE

Chapter IX-War Production Board

Subchapter B-Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS (Suspension Order S-622)

SUN-RA FROZEN FOODS, INC.

Sun-Ra Frozen Foods, Inc., a Missouri corporation with its principal place of business in Kansas City, Missouri is engaged in the sale of frozen foods and in the manufacture, sale and servicing of refrigeration systems and equipment, Between March 31, 1943 and August 31, 1943, the corporation applied the ratings assigned under Preference Rating Order P-126 together with the serial number assigned thereunder to another company to at least thirteen separate orders for the purchase of refrigeration equipment and parts of the value of \$1,000, which equipment and parts were not used for emergency repair service but which were incorporated into and delivered with new refrigeration systems in violation of Preference Rating Order P-126 and General Limitation Order L-38. Between March 27, 1943 and May 30, 1943, the corporation manufactured or assembled twenty-three frozen food cabinets of the value of \$7,000, without authorization from the War Production Board and in violation of General Limitation Order L-38. Between August 2 and August 18, 1943, the company sold and delivered one new reach-in-refrigeration system of the value of \$859.50 and one new 11/2 H. P. compressor of the value of \$350, on orders which were not authorized orders, in

violation of General Limitation Order L-38. On or about August 2, 1943, the corporation began and thereafter continued construction of a frozen food locker plant without authorization from the War Production Board. The estimated cost of this construction was approximately \$1,700, which amount exceeded the limit of \$1,000 permitted by Conservation Order L-41 and was in violation of that order. The responsible officers of the Sun-Ra Frozen Foods, Inc., were aware of the provisions of General Limitation Order L-38, Preference Rating Order P-126, and Conservation Order L-41, and its actions constituted willful violations of these orders.

These violations have diverted critical materials to uses not authorized by the War Production Board and have hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered, That:

§ 1010.622 Suspension Order No. S-622. (a) Sun-Ra Frozen Foods, Inc., shall not for two months from the effective date of this order apply or extend any preference ratings regardless of the delivery date named in any purchase order to which such ratings may be applied or extended.

(b) Sun-Ra Frozen Foods, Inc., shall cancel immediately all preference ratings which it has applied or extended to orders which have not yet been filled, except that if it has extended a customer's rating to get an item for delivery without a change in form to that customer (as distinct from replacing it in inventory) it need not cancel the rating, provided the item when received is promptly delivered to the customer whose rating was extended.

(c) All preference ratings presently outstanding in connection with orders for delivery of materials to Sun-Ra Frozen Foods, Inc., or placed prior to the termination date of this order are void and shall not be given any effect by suppliers of Sun-Ra Frozen Foods, Inc., or by any other person. This does not apply to material already delivered or in transit for delivery to it on the effective date of this order.

(d) Sun-Ra Frozen Foods, Inc., shall not for two months from the effective date of this order:

(1) Receive or accept delivery of any new refrigeration systems, units or parts as defined in Limitation Order L-38. This does not apply to material in transit for delivery to it on the effective date of this order.

(2) Deliver any new refrigeration systems or parts, except to the extent of delivering or using parts taken from its inventory in emergency repair service.

(3) Put into process or continue processing any materials in the manufacture of refrigeration systems or parts.

(4) Manufacture, fabricate or assemble any refrigeration systems or parts.

(e) All specific authorizations (on form WPB-1319) or otherwise, for the delivery of any material to Sun-Ra Frozen Foods, Inc., which is to be delivered before the termination date of this order, are cancelled and shall not be given any effect by suppliers of Sun-Ra

Frozen Foods, Inc., or by any other person. This does not apply to material already delivered or in transit for de-livery to it on the effective date of this

(f) The restrictions and prohibitions contained herein shall apply to Sun-Ra Frozen Foods, Inc., its successors or assigns or persons acting in its behalf. Prohibitions against the taking of any action include the taking indirectly as

well as directly of any such action.

(g) Nothing contained in this order shall be deemed to relieve Sun-Ra Frozen Foods, Inc., its successors or assigns, from any restrictions, prohibitions or provisions contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(h) This order shall take effect on September 25, 1944, and shall expire on November 25, 1944.

Issued this 14th day of September 1944.

PART 1226-GENERAL INDUSTRIAL EQUIP-MENT

[Order L-292, Interpretation 3]

TRANSITION FROM ONE YEARLY QUOTA SCHEDULE TO THE NEXT

The following interpretation is issued with respect to Order L-292:

Production quotas for various items of food processing machinery, based upon each manufacturer's base period use of controlled materials, are established by Quota Schedules I, II, III, VI, VII and VIII for the year

ending September 30, 1944, and by Schedules I-A, II-A, III-A, VI-A, VII-A, and VIII-A for the year beginning October 1, 1944 and ending September 30, 1945.

Each manufacturer producing items (new

machines or parts for new machines) subject to any of these quota schedules for the year ending September 30, 1944, and continuing in production under the corresponding quota schedule for the next year must ascertain how much of the controlled materials on hand, in process or completed on September 30, 1944 are to be charged against his quota under the applicable schedule for the year ending on that date, and how much of such materials must be charged against his quota under the schedule applicable to the year commencing October I, 1944, in order to determine how much additional produc-tion he is permitted during the remainder of the latter year under the schedule which applies to it.

For the purposes of the schedules men-tioned, controlled materials are to be con-sidered as having been "used" during the year ending September 30, 1944 only if they have been actually put into process or actually installed or assembled. Being put into process does not include minor initial operations, such as painting, and does not include any shearing, cutting, trimming, or other operation unless such initial operations are part of a continuous fabricating or assembling operation. Neither does it in-clude operations such as inspection, testing and ageing, nor segregating or ear-marking

for a specific job or operation.

For example, if a manufacturer who uses wire or rod cuts a sufficient quantity of it to length at one time to maintain his operations for a considerable period of time, the cut pieces remain as inventory until proc-essed into another form or until assembled or installed; and such cut pieces on hand at the end of the year may not be considered as having been "used" during that year, and if they are used during the following year they are to be charged against the quota for

the following year.

Similarly, if a manufacturer shears steel sheet and stocks it in sheared form, such stock does not thereby become "used", unless such shearing is a part of a continuous fabricating or assembling operation which is already being carried on at the end of the year.

Material which is still to be treated as in inventory, in accordance with interpretation 1 to CMP Regulation 2, at the end of the year, cannot be treated as having been "used" during that year.

Issued this 26th day of September 1944.

PART 1351—FOOD AND FOOD PRODUCTS
[FPR 1,1 Amdt. 10 to Supp. 7]

PACKED FRUITS, BERRIES AND VEGETABLES OF THE 1944 AND LATER PACKS

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Supplement 7 to Food Products Regulation No. 1 is amended in the following respects:

1. The table in section 1 (a) is amended by adding item 11 to read as follows:

Column 1	1 Column 2		Coli	amn 4
Item No.	Product	Section	Section	Appendix
11	Bartlett pears, haives (peeled), quarters (peeled), and diced, (California only).		16	E

2. In section 16, Appendix E is added to read as follows:

APPENDIX E-BARTLETT PEARS, HALVES (PEELED), QUARTERS (PEELED), AND DICED

Explanation of how maximum prices are figured for packed Bartlett pears, halves (peeled), quarters (peeled), and diced. This appendix includes the specific pricing provisions for packed Bartlett pears, halves (peeled), quarters (peeled), and diced, produced in the state of California. It does not apply to these styles of pack of Bartlett pears produced in states other than California, nor does it apply to packed spiced, whole or pickled Bartlett pears, or Bartlett pear compote, produced in any area.

Conversions for grade, for syrup differential, and for container type and size under subparagraph (2), (3) or (4) of section 5 (a) of this supplement are to be made in the same order and in the same manner as those for packed apricots. The explanation at the beginning of Appendix B of this section applies to this appendix for that purpose.

How conversions are made for style of pack. A processor who during the base period sold Bartlett pears, halves (peeled), or quarters (peeled), but did not sell Bartlett pears, diced, and is now pricing the latter style, must convert for style of pack by adding to his constructed price \$.06 per dozen, in the case of No. 2½ cans, or \$.20 per dozen in the case of No. 10 cans. Similarly, a processor who during the base period sold Bartlett pears, diced, but did not sell Bartlett pears, alves (peeled), or quarters (peeled), and is now pricing one of the latter styles, must convert for style of pack by subtracting from his constructed price \$.06 per dozen, in the case of No. 2½ cans, or \$.20 per dozen, in the case of No. 10 cans. In either case this is done after application of the limitations of the price range to the constructed price and conversion for grade (see step 8 in the explanation at the beginning of Appendix B).

For the reasons set forth in the accompanying statement of considerations, and by virtue of the authority vested in me by the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, I find that the issuance of this amendment, establishing maximum prices for the designated style of packed Bartlett pears grown in California, based on a raw fruit cost of \$80.00 per ton, is necessary to aid in the effective prosecution of the war.

(vi) The processor's maximum prices, f. o. b. factory, for graded tray-dried Kadota figs, packed in boxes or sacks, shall be ½ cent per pound*less than the maximum price for the same grade of Adriatic figs in bulk, and for graded natural Kadota figs, packed in boxes or sacks, one cent per pound less than the maximum price for the same grade of Adriatic figs in bulk.

(vii) The processor's maximum prices,f. o. b. factory, for packaged figs, in

packages for which no maximum prices have otherwise been established by this supplement, shall be figured as follows: If the variety, grade, and style of pack are the same as a package for which a maximum price is established by this supplement, but there is a difference in weight, the maximum prices for the package being priced and the package for which a maximum price has been established shall be in the same rela-tionship to each other as the weights of the packages are to each other. If the package being priced differs in grade or style of pack from a package of the same variety for which a maximum price has been established, the maximum prices of the packages shall be in the same proportionate relationship as they

were in 1942.

(viii) If a seller sells figs which he manufactures into fig paste or sliced figs for the buyer, the sale shall be treated as a sale of the product as finally delivered to the buyer.

(b) Maximum prices per ton may be converted to maximum prices per pound

by dividing by 2000.

(c) Maximum prices per pound for brands which were nationally advertised in 1941, of the dried fruits in the container sizes specified below, shall be figured by adding a premium to the maximum prices per pound figured under the foregoing paragraphs of this section, as follows:

Dried fruits	Container sizes	Premium per lb.
Prunes	1 lb. and 2 lb. cartons 11 oz. cartons 11 oz. cartons	Cent 1/2 3/4 3/4

(d) All maximum prices, except those for sales to government procurement agencies, include brokerage.

(e) Differentials used to figure maximum prices shall be the same amount in dollars and cents for sales to government procurement agencies or other sales. In figuring maximum prices for sales to government procurement agencies, differentials shall be added to or subtracted from maximum prices established for sales to government procurement agencies. In figuring maximum prices for other sales, the same differential shall be added to or subtracted from the maximum prices established for other sales.

(f) Maximum prices per pound for bulk packs may be adjusted to the nearest 1/8 of a cent. Maximum prices for container sizes and packaged dried fruits obtained by the use of differentials from bulk packs may be adjusted to the nearest cent only on the total amount of the invoice.

(g) The boxes or other containers referred to are standard commercial boxes

or containers.

(h) Where maximum prices are named for dried fruits packed in wood boxes, the maximum price in each case for the same product when packed in

fibre containers shall be \$2.50 per ton less than the maximum price named for it when packed in wood boxes.

Sec. 5. Processor's maximum prices for natural condition unpacked prunes and raisins and partially processed dried fruits in sales to other processors. The pricing method of this section applies only to a seller who processes and sells as a processor at least 75% of all the natural condition unpacked dried fruit bought or sold by him. If the seller is also a producer, dehydrator, or dry-yard operator, the pricing method applies only if the amount of fruit so processed is at least equal to 100% of the natural condition unpacked dried fruit grown or handled by him as a producer, dehydrator or dry-yard operator.

The processor's maximum price, f. o. b. factory, for sales to another processor of any item of natural condition prunes or raisins, or partially processed dried fruits, shall be the processor's maximum price for the corresponding item of dried fruit when fully processed.

If the conditions of this section are not met, the maximum prices for a processor selling to another processor shall be the maximum prices, if any, established for producers, dehydrators or dryyard operators for natural condition unpacked dried fruits.

SEC. 6. Processor's maximum prices for sales of items of prior years' packs which have been sold to him by government agencies. The maximum price for sales by a processor, to purchasers other than government procurement agencies, of that portion of an item packed prior to 1944 which has been sold to the processor by a government agency, shall be that processor's maximum price, f. o. b. factory, as established under this regulation for the same item when packed in 1944. However, differences in brand shall be ignored.

SEC. 7. Processor's base prices for use in determining maximum export prices for dried prunes and raisins. For dried prunes and raisins of the 1944 crop (other than London Layer Muscats and Zante Currants), the base prices to be used by the packer in determining his maximum export prices under Second Revised Maximum Export Price Regulation shall be the maximum prices set forth in section 4 (a) (4) (i) and section 4 (a) (5) (i) of this supplement for sales to government procurement agencies, in each case plus an amount, based on those prices, equal to the discount customarily allowed in cash sales and the selling expense customarily included in prices in civilian sales, but not in excess of 5% for both selling expense and cash discounts. No. 193-3

§ 21.1 General provisions; jurisdiction. In accordance with the Secretary of the Navy's precept of July 22, 1944, the Navy Department Board of Review, Discharges and Dismissals, hereinafter known as the Board, has been established within the Navy Department to review, upon its own motion, or upon request by or on behalf of the individual former officer or enlisted man or woman, or if deceased, by the surviving spouse, next of kin or legal representative concerned, or if incompetent, by the guardian, the type and nature of discharge or dismissal certificate or other documentary evidence of discharge or dismissal of former member of the naval service, except a discharge or dismissal by reason of the sentence of a general court-martial. The scope of the review shall be to determine whether, under reasonable standards of naval law and discipline, the type and nature of the discharge or dismissal should be changed, corrected or modified, and, if so, to decide what change, correction or modification should be made. The Board has no authority to revoke any discharge or dismissal, to reinstate any person in the military service subsequent to his discharge or dismissal, or to recall any person to active duty.

§ 21.2 Procedure—(a) Request for review. (1) The petitioner should submit a written request for a review to the Board, with the certificate of discharge or dismissal in question, if available, and such other statements or affidavits as he

desires to present.

(2) The request should state in brief: (i) the type of discharge or dismissal received; (ii) the full name, former rank or rating and the service or file number of the person whose discharge or dismissal is in question; (iii) the place to which any notices in connection with the review may be sent; (iv) the basis of the claim for review; (v) what action is desired of the Board; and (vi) whether the petitioner desires the review on basis of petition and accompanying papers or whether he desires to appear in person before the Board and/or be represented by counsel. (If counsel is desired, the petitioner should designate such counsel by name.)

(3) When the request for review is submitted by a surviving spouse, next of kin, legal representative or guardian, satisfactory evidence of the required rela-

tionship must be submitted.

(4) No request for review of a discharge or dismissal shall be valid unless filed within fifteen years after such discharge or dismissal or within fifteen years from June 22, 1944, whichever be the later.

(b) Review on own motion. (1) The Board shall not conduct a review on its own motion without first transmitting a written notice to the person concerned or, if such person is deceased, to his surviving spouse, next of kin, legal representative or guardian, by registered mail, return receipt requested.

(2) Such notice shall state that a review of the type and nature of this discharge or dismissal is to be held by the Board, and shall advise the addressee of

his right to appear before the Board, in person or by counsel, and to present evidence before the Board in the manner herein prescribed.

(c) Methods of presenting case. The petitioner may present his case:

(e) Witnesses. (1) The Board shall require that all testimony be given under

oath or by affirmation.

(2) Witnesses shall be subject to examination and/or cross-examination as appropriate, by the Members of the Board, the petitioner, his counsel, or by the Government Representative.

(3) The testimony of witnesses may be presented either in person or by affi-

davits.

(f) Expenses. No expense of any nature whatsoever incurred by the petitioner, his counsel, his witnesses, or by any other person on his behalf, shall be

paid by the Government.

(g) Notice of hearing. The Board shall give a petitioner at least thirty days' written notice of the time and the place of the hearing. Such time shall be computed from the time of mailing of the notice. The petitioner may waive such time limit and an earlier hearing date may be set by the Secretary of the Panel.

(h) Continuances. A continuance may be granted by the Board on its own motion, or at the request of the petitioner or Government Representative, when such continuance appears necessary in order to insure a full and fair hearing.

(i) Failure of petitioner to appear. A petitioner who requests a hearing and who, after being duly notified of the time and place of hearing, fails to appear at the appointed time, either in person or by counsel, thereby waives his right to be present and cannot thereafter take exception to the findings or conclusions arrived at in his absence.

(1) Evidence. (1) The Board, in its review, shall consider as evidence all available records of the Navy Department, the Marine Corps or the Coast Guard, together with such evidence as may be submitted by the petitioner

(4) Such other ultimate facts as may be necessary and pertinent to the issue.

(c) Conclusions. The Board, on the basis of its findings, shall prepare written conclusions as to whether the type or nature of the discharge given should be changed, corrected or modified.

(d) Decision. The Board shall next record its decision. The nature of any change, correction or modification to a certificate of discharge or dismissal shall

be specified with particularity.

(e) Order. A written order based on the decision shall be prepared for transmittal to the Chief of Navy Personnel, the Commandant of the Marine Corps or the Commandant, U.S. Coast Guard, as appropriate.

(f) Record of proceedings. When the Board has concluded its proceedings, the Secretary of the Panel shall prepare a complete original record thereof. Such record shall include the request for review, a transcript of the hearing, if any; affidavits, papers and documents considered by the Board; all briefs and written arguments filed in the case; the findings, conclusions, decision and order of the Board; any minority report prepared by dissenting members of the Board, and all other papers and documents necessary to reflect a true and complete history of the proceedings. [Docket No. G-580]

NATURAL GAS INVESTIGATION ORDER INSTITUTING INVESTIGATION

SEPTEMBER 22, 1944.

It appearing to the Commission that: (1) There are many complex and difficult problems related to the conservation and utilization of natural gas which numerous parties appearing before the Commission have urged should be considered in a proper discharge of the Commission's duties and responsibilities under the Natural Gas Act.

(2) The Commission in its 1940 annual report to Congress directed attention to certain of these problems and suggested the necessity for further investigation and additional legislation.

- (3) Following submission of the above report and extensive hearings with respect to H. R. 5249, a bill to amend section 7 of the Natural Gas Act, the Committee on Interstate and Foreign Commerce of the House of Representatives reported the bill favorably. In its report (H. Rep. No. 1290, 77th Cong., 1st Sess., p. 3) the Committee pointed out that by these amendments to the act "the door is opened to the consideration by the Commission of the effect of construction and extensions upon the interests of producers of competing fuels and competitive transportation interests." In so doing, the committee deleted certain provisions of the proposed bill with the statement that "the increasingly important problems raised by the desire of several States to regulate the use of natural gas produced therein in the interest of consumers within such States, as against the Federal power to regulate interstate commerce in the interest of both interstate and intrastate consumers, are deemed by the committee to warrant further intensive study and probably a more detailed and comprehensive plan for the handling thereof than that which would have been provided by the stricken subsection."
- (4) On February 7, 1942, the amendments to section 7 of the Natural Gas Act became effective and, as the Supreme Court of the United States held in Federal Power Commission, et al. v. Hope Natural Gas Company, 320 U.S. 591, 612, (1944), "considerations of conservation are material to the issuance of certificates of public convenience and necessity," under that section, as amended.
- (5) Governors, regulatory commissions, and officials of certain gas-producing States have intervened in proceedings before the Commission and have advanced various contentions with respect to the exportation of natural gas

from such States for consumption in areas where other energy resources are available, divergent views being expressed by the representatives of such States.

(6) Representatives of coal, railroad, labor, and other interests concerned with the production or transportation of competing fuels have intervened in proceedings held by the Commission under section 7, as amended, and have presented evidence on the economic, sociological, and technological aspects of fuel competition, and have strongly urged the Commission either to deny requested certificates of public convenience and necessity or to attach restrictions which would substantially limit the uses for which natural gas might be sold.

(7) Representatives of natural-gas companies in such proceedings have emphasized the amount of the investments heretofore made to supply markets which include domestic, commercial, industrial, and other uses of natural gas, and have contended that curtailment of the loads to industrial customers would substantially impair their ability to render adequate service to other consumers at reasonable rates. They have contended also that new or additional sources of supply are necessary to maintain adequate service in areas whose original source of supply has been or is being exhausted but where large investments in pipe lines and distribution facilities have been made.

(8) Proceedings before the Commission have shown that it is principally in the field of direct industrial sales from interstate pipe lines that natural gas comes into direct competition with other fuels, the rates at which such sales are made not being subject to regulation under the Natural Gas Act.

- (9) Proceedings before the Commission have disclosed that in the industrial areas of the United States large investments have been made in plant facilities designed for the utilization of natural gas in industrial processes, and that the conversion of such facilities, or the installation of new facilities, to utilize fuels other than natural gas will require large expenditures of money, time, and materials, and may effect substantial changes in the method of operation, cost of production, and end products of many industrial establishments.
- (10) The Commission, in discharging its duties and responsibilities under the act, has obtained extensive data and information with respect to various aspects of the problems involved in the conservation and utilization of natural gas, but such data and information are not sufficiently complete for adequate consideration of such problems.

The Commission finds that:

To aid in carrying out its authority and responsibilities under the Natural Gas Act, particularly sections 7, 11 and 14 thereof, including the prescribing of rules and regulations thereunder, and to obtain information to serve as a basis for determining whether further legislation should be recommended to Congress, it is appropriate in the public interest that an investigation be instituted with respect to matters involved in the conservation and utilization of natural gas as hereinafter provided.

The Commission orders that:

(A) An investigation be and hereby is instituted into the extent and probable life of natural gas reserves; present and prospective measures for preventing waste and prolonging the life of such reserves; the present and probable future utilization of natural gas for domestic, commercial and industrial purposes; the extent, character and results of the competition of natural gas with other fuels; and such related matters as may be helpful in the administration of the Natural Gas Act or in determining what additional legislation, if any, should be recommended.

(B) The procedure to be followed in said investigation and the date and location of hearings shall be prescribed by subsequent order or orders of the Com-

mission.

[MPR 445, Order 514]
DISTILLED SPIRITS AND WINES
ADJUSTMENT OF MAXIMUM PRICES

Prospective increases in processors' maximum prices for sales of bulk domestic grape spirits, bulk domestic spirits fruit, neutral brandy and high proof and high wines made from any fruits or berries except grapes have been announced by press release of the Office of Price Administration issued August 26, 1944. Maximum prices for sales by processors and other sellers are now established by section 2.4, Maximum Price Regulation 445.

The products described are used in the fortification of wine and in the blending of other alcoholic beverages. Under the circumstances, purchasers are unable to procure supplies until the issuance of the announced price, and difficulties in securing supplies threaten to delay operations of winery purchasers until too late for the current grape harvest and, in the case of rectifiers, until too late to supply fall markets in the normal manner.

Section 7.11 of Maximum Price Regulation 445 provides for the issuance of an adjustable pricing order permitting deliveries at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. The Price Administrator has found that authority to use adjustable pricing for sales of the products named, pending issuance and effective date of the announced price change, is necessary to promote production and distribution of the products. He has further found such authorization will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. Therefore, in accordance with section 7.11, Maximum Price Regulation 445, It is ordered, that:

(a) Processors of, and dealers in bulk domestic grape spirits, bulk domestic spirits fruit, neutral brandy, and high proof and high wine made from any fruits or berries except grapes, may make sales and deliveries thereof and purchasers may buy and receive such products at prices to be adjusted upward after delivery to amounts not in excess of maximum prices established by final action to be taken by price regulation or amendment providing adjustments in maximum prices for those products. Prior to the effective date of such final action, no payment for those products shall be made or received in excess of maximum prices prevailing at the date of delivery.

(b) This order shall be revoked without further action by the Price Administrator upon the effective date of a price regulation or amendment increasing maximum prices for sales of the products described. It may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 26, 1944.

Issued this 25th day of September 1944.

CHESTER BOWLES,
Administrator.

(ii) Carry or wheel from curb. If buyer requests such service, the dealer may not charge more than 50¢ per ton

therefor.

(iii) Carry up or down stairs. If buyer requests such service, the dealer may not charge more than \$1.00 per ton therefor.

(iv) Sacking. If buyer requests such service, the dealer may not charge more than \$2.00 per ton for the labor of sacking coal. This charge does not include sacks.

(v) Sacked coal. Dealer may charge not more than 60¢ for 85 lbs. of sacked coal from District No. 8, East Kentucky and Tennessee, and not more than 50¢ for 85 lbs. of sacked coal from District No. 9, West Kentucky, when sold at the yard. An additional charge of 10¢ per 85 lb. sack may be made for delivery. The prices specified do not include sack, for which no charge in excess of the applicable maximum price may be made.

(vi) Yard sales. When buyer picks up coal at the dealer's yard, the domestic price must be reduced at least \$1.00 per ton.

(vii) Quantity discounts. When a buyer purchases coal in quantities of thirty (30) tons or more, the dealer must reduce the domestic price at least 75¢ per ton. This discount is not applicable to stoker or slack coals.

(viii) Treated coals. If a dealer's supplier has subjected the coal to oil or calcium chloride treatment to allay dust or to prevent freezing and makes a charge therefor, the dealer selling such coal may add to the applicable maximum price

Such delivery charge, if added, must be stated separately from all other charges on the invoice.

(x) Terms for credit. The prices set out in the price list are for cash sales, and if the buyer does not make payment in full for all purchases of solid fuels covered by this order within three days from the date of delivery, the dealer may add a credit charge, not to exceed 50¢ per ton.

(d) Ex parte 148 freight rate increase; transportation tax—(1) The freight rate increase. Since the ex parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, the dealer's freight rates are the same as those of December, 1941; therefore, no dealer may increase any price specified herein on account of freight rates.

(2) The transportation tax. Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected, in addition to the maximum prices set by this order. It may be collected only if the dealer states such tax separately from the price of the coal on the invoice. (The tax need not be stated separately on sales to the United States or any agency thereof—see amendment 12 to Revised Maximum Price Regulation No. 122.) No part of this tax may be collected in addition to the maximum prices specified on sales of one-quarter ton or lesser amounts of coal, or on sales of any quantity of bagged coal.

(e) Addition of increases in supplier's prices prohibited. The maximum prices set by this order may not be increased by a dealer to reflect increases in his purchase cost or in his supplier's maximum prices occurring after the effective date hereof, but increases in the maximum prices set hereby, to reflect such increases are within the discretion of the Administrator or of the Regional Administrator of Region IV.

(f) Power to amend or revoke. This order, or any provision thereof, may be revoked, amended, or corrected at any time by the Administrator or by the Regional Administrator of Region IV.

(g) Petitions for amendment. If such petition is filed with the Regional Administrator, action thereon shall be taken by him. When such a petition is filed with the

Regional Administrator, all requirements of Revised Procedural Regulation No. 1, relative to the filing of such petitions, are applicable except the place of filing specified therein.

(h) Applicability of other regulations-(1) Licensing and registration. Every dealer subject to this order is subject to the licensing and registration provisions of sections 15 and 16 of the General Maximum Price Regulation. These sections provide, in brief, that a license is required of all persons selling, at retail, commodities for which maximum prices are established. A license is automatically granted. It is not necessary to apply for a license, but a dealer may later be required to register. A license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(2) Effect of this order on Revised Maximum Price Regulation No. 122. To the extent applicable, the provisions of this order supersede the provisions of Revised Maximum Price Regulation No. 122

122.

(i) Records and reports. Every person making sales of solid fuels for which maximum prices are established by this order shall keep a record thereof showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in this order. This record shall also separately state each service rendered and the charge made therefor.

(1) It is not necessary that these records or your maximum prices be filed with the War Price and Rationing Board.

(j) Posting of maximum prices; sales slips and receipts. (1) Each dealer subject to this order shall post all the maximum prices set hereby for all of his types of sales. He shall post his prices in his place of business in a manner plainly visible to, and understandable by, the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuels.

(2) Every dealer selling solid fuels for the sale of which a maximum price is set by this order shall, within 30 days after the date of delivery of the fuel, give to the buyer a statement showing: the date of the sale, the name and address of the dealer and of the buyer, the kind, size, and quantity of the solid fuel sold, the price charged, and separately stating any item which is required to be separately stated by this order. This paragraph (j) (2) shall not apply to sales of quantities of less than one-quarter ton or to sales of bagged coal unless the dealer customarily gave such a statement on such sales.

All provisions of this order and their effect upon business practices, cost practices, or methods, or means or aids to distribution in the industry or industries affected have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

(a) Geographical applicability. This order shall apply only to sales in Region VII of the Office of Price Administration made in that part of the State of Idaho lying south of the northern boundary of Idaho County, and the County of Malheur in the State of Oregon.

times.

(d) Taxes. Wholesalers affected by this order may not add taxes to the maximum prices provided in paragraph (b). Existing taxes have already been taken

into account in establishing these prices.
(e) Evasion. The maximum price established by this order shall not be evaded, whether by direct or indirect methods in connection with an offer, solicitation, agreement, sale or trade of, or relating to the sale of Ballantine's XXX Ale alone, or in connection with any other commodity, or by way of commission, service, transportation, or any charge or discount, premium, or other privilege or by tying-agreement or by

other trade understanding, or otherwise.

(f) Licensing. The provisions of Licensing Order No. 1, licensing all persons who make sales under Price Control, are applicable to the Nagel Beverage Company and all other wholesale beverage companies in the State of Idaho. Such sellers' licenses may be suspended for the violation of this order. No steps need be taken by the seller to procure this license. If said license is suspended, no sale of the commodity covered by this order may be made during such period of suspension.

(g) Applicability of other regulations. Except insofar as the same are inconsistent with or contradictory to the terms and provisions of this order, all the terms and provisions of the General Maximum Price Regulation shall remain in full force and effect as to the establishment affected by this order.

(h) Enforcement. Any person violating a provision of this order will be subject to the criminal penalties, civil enforcement actions, suits for triple damages, and proceedings for suspension of license provided by the Emergency Price Control Act of 1942, as amended.

SECURITIES AND EXCHANGE COM-MISSION.

[File Nos. 54-103, 59-68, 70-842]

TIDE WATER POWER CO., ET AL.

NOTICE OF FILING AND ORDER FOR HEARING AND CONSOLIDATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 23d day of September 1944.

In the matters of Tide Water Power Company, File No. 54-103; Tide Water Power Company, Respondent, File No. 59-68; General Gas & Electric Corporation, File No. 70-842.

Notice is hereby given that an application for approval of a "Plan of Recapitalization" has been filed with this Commission under section 11 (e) of the Public Utility Holding Company Act of 1935, by Tide Water Power Company ("the Company"), a subsidiary of General Gas & Electric Corporation, a registered holding company; and

All interested persons are referred to said application which is on file in the offices of the Commission for a statement of the transactions proposed in said "Plan of Recapitalization", which may

be summarized as follows:

The plan proposes that all of the outstanding First Mortgage 5% Bonds of the Company, due 1979, aggregating \$6,065,500 principal amount, shall, by call for redemption at 104% of the principal amount thereof, be paid off and retired from cash in the treasury and from the proceeds of the issue and sale, for cash, of \$4,500,000 principal amount of new First Mortgage 31/2 % Bonds to mature in 1974 and 10,000 shares of new no par \$5 Preferred Stock, having an aggregate stated value of \$1,000,000. It is proposed that said refunding of the outstanding bonds, together with the issuance of said new bonds and \$5 Preferred Stock shall be consummated without awaiting approval or enforcement of the plan as a whole.

It is also proposed in said plan that all of the outstanding 115,789 shares of Common Stock of the Company, held by General Gas & Electric Corporation, and all of the outstanding 23,858 shares of \$6 Preferred Stock shall be retired and cancelled and in exchange therefor there shall be issued 98,893 shares of new Common Stock without par value. Said plan further provides that the holders of the present \$6 Preferred Stock of the Company shall receive four shares of such new Common Stock for each share of \$6 Preferred Stock, including accumulated and unpaid dividends thereon, aggregating \$38 per share at June 30, 1944, and that General Gas & Electric Corporation shall receive 3,461 shares of such new Common Stock for its present holdings of all the outstanding Common Stock.

It is further proposed, in conjunction with said plan, to restate the plant and property of the company on the basis of estimated original cost thereof, as at June 30, 1944, by a write-down in the amount of \$2,796,225.72; to reduce the reserve for retirements (depreciation), as at the same date, by \$633,808.99, to be credited to earned surplus; to eliminate by a charge to earned surplus \$501,007.72 of fixed capital and other suspense presently being amortized; and to eliminate the capital surplus and the resulting earned surplus deficit as at the same date, June 30, 1944.

The consummation of the plan is stated by the company to be dependent upon (1) the plan having been found by the Securities and Exchange Commission to be necessary to effectuate the provisions of section 11 (b) of the act and to be fair and equitable to the persons affected thereby and to have been approved by the Commission and found by a Federal court to be fair and equitable and appropriate to effectuate the provisions of section 11 of the act: (2) the change and reclassification of the existing Preferred Stock proposed in the plan having become binding upon the holders of all shares of such stock; (3) necessary authorization having been given for the plan and for the issuance of the new stock by regulatory commissions; and (4) a ruling having been made by the appropriate tax authorities to the effect, or the company having otherwise been satisfied, that the changes in and reclassification of the existing Preferred Stock into Common Stock will not result in the recognition, under the United States Internal Revenue Code, of gain or loss to the present holders of such Preferred Stock.

It is further proposed that the plan shall be carried out by corporate proceedings either to amend the certificate of incorporation of the company, to transfer the assets of the company to a new corporation organized for the purposes of the plan or to effect the consolidation or merger of the company with a new corporation organized for the purposes of the plan, or through a Federal court of competent jurisdiction acting under section 18 of the act, in a proceeding instituted by the Securities and Exchange Commission at the request of the company, pursuant to section 11 (e) of the act, or, wholly or in part, in any two or more of said methods.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said proposed "Plan of Recapitalization" and that said plan should not be effectuated except pursuant to further order of the Commission; and

The Commission having heretofore instituted proceedings (designated as File No. 59-68), under sections 11 (b) (2), 12 (c), 15 (f) and 20 (a) of the act, with respect to Tide Water Power Company; and a declaration (designated as File No. 70-842) having been filed with this Commission pursuant to section 12
